Timely intervention of MPHRC helps party

Taking cognizance of the death of a school girl due to electrocution, the parents of the deceased school girl received Rs 2 lakh as compensation due to timely intervention of MPHRC

■ Staff Reporter

TAKING cognizance of the death of a school girl due to electrocution, the parents of the deceased school girl received around Rs 2 lakh as compensation due to timely intervention of Madhya Pradesh Human Rights Commission (MPHRC). The amount has been given by Rajya Shiksha Kendra. The girl was electrocuted when she came in contact with the iron

door. It was brought to notice that it was completely due to the lenient attitude of school authorities. In spite of the knowledge of school administration, no proper care was taken, which eventually resulted in unfortunate incident.

Like this, there are other types of cases where Madhya Pradesh Human Rights Commission has also come up with cases of tubectomy botch-up where compensation is being provided to the victim.

The victim from Ratlam has been given amount of Rs 30,000 as compensation. However, most of the compensation cases were that of cognizance taken over written complaints. Online complaints registration facility has been started in MPHRC last year to facilitate the public for convenient way to register the complaint through website.

This measure was taken to reduce paperwork and other hassles involved in registration

and to reduce the enclosures. The method is, however, not gaining attention of the public and most of the registrations are being done through normal process only.

The online complaints received by Madhya Pradesh Human Rights Commission is very less and most of the time the online complaints are being registered with inadequate information. It was also reported that most of the complaints received by MPHRC were more from persons, who are not computer literate and they prefer to come and register the complaint by themselves with the enclosures. Besides this, in online complaints, one needed to submit all the necessary information and also needed to scan the necessary documents. The incomplete registration of complaints through only fails to undergo the process and at times the complainants are asked to submit the necessary documents.
